

Sealed Air

Sealed Air Corporation Environmental Health & Safety Policy Statement

Sealed Air is committed to creating a better way for life through the integration of our environmental, health and safety principles in all aspects of our business - including our products, our operations and our supply chain.

Sealed Air employees will conduct business in accordance with applicable environmental, health and safety laws and understand and comply with Company procedures and guidelines to protect the environment and the health and safety of themselves and their coworkers.

Our goal is to achieve a zero-harm environment for employees as we continue to develop sustainable solutions that leave our world and communities better than we found them.

Further, as part of this Policy Statement, we will also:

- Provide training programs for employees to perform their jobs safely and in an environmentally responsible manner and to understand their role in complying with policies, procedures and guidelines.
- Focus on the design and development of products that enable our customers to accomplish their environmental health and safety goals by reducing waste, increasing operational efficiency, protecting human health, and improving food safety and security.
- Conserve raw materials, water and energy in our operations through source reduction, process improvement, use of alternative materials and waste recovery. We will actively pursue programs to reduce the overall green-house gas intensity of our operations.
- Communicate our Policy Statement to customers, suppliers, shareholders and the local communities in which we operate, as applicable.
- Establish targets and be transparent in reporting publicly progress on improving our environmental, health and safety performance.
- Develop sustainable solutions that leave our world, environment and communities better than we found them.

A handwritten signature in black ink that reads 'Ted Doheny'. The signature is written in a cursive, slightly stylized font.

Ted Doheny
President & Chief Executive Officer
